### **Crime Analysis Statistical Request**

The Sumter Police Department provides this service as a tool for the community. This product will display a six-month historical crime map for any address requested within the city's jurisdiction.

Upon your initial submission, the report will take **3-5 business days** to process. Once all data is compiled, our analyst will provide a map to you via email. This map will identify approximate location of the reported incident and the type of crime committed, all within a one-mile radius of address in question.

If you require additional information, please submit your request through the support services tab and follow instructions provided. A member of our team will be in contact with you soon.
